The following documentation is intended to establish rules and maintain the highest level of competitive Rainbow Six Esports in EU.

In all cases, the rules outlined in this document, the BLAST R6 EU Rulebook and the BLAST R6 Global Rulebook are to be followed by participants in the European Competitive R6 ecosystem, at any level. Participants who fail to adhere to these rules may be penalized with financial or administrative sanctions up to and including fines, permanent eligibility restrictions, and removal from current or future participation.

2. BLAST R6 EU Rulebook

The BLAST R6 EU Rulebook is dedicated to governing the activity within the BLAST R6 EU and its subsidiary components EU League and EU Open. The BLAST R6 EU circuit is the premier Rainbow Six (R6) esports program in EU and is operated by Ubisoft and BLAST (collectively known as The Organizer).

3. BLAST R6 Global Rulebook

The BLAST R6 is governed by the BLAST R6 Global Rulebook. The BLAST R6 Global Rulebook outlines the primary rules and governances of all levels of the BLAST R6, including the BLAST R6 EU circuit. The rules outlined in the BLAST R6 EU Rulebook are not intended to be stand-alone, rather, used to supplement the BLAST R6 Global Rulebook to create a full ruleset for the Blast Rainbow Six EU. In all cases, the BLAST R6 Global Rulebook is the standard operational ruleset with the BLAST R6 EU Rulebook outlining additional or specific details and governance within BLAST R6EU.

In the event the BLAST R6 rulebook and BLAST R6 Global Rulebook state conflicting rules, the Global Rulebook will be the governing document by default.

4. Code of Conduct

5. BLAST R6 EU

BLAST R6 EU is the premier R6 esports program in EU. It encompasses multiple levels of competition and includes only EU, as defined in the Global Rulebook.

5.1 Components and Structure

BLAST R6 EU is made of three parts.

- The EU League
- The EU Open
- The Major EU Last Chance Qualifier (LCQ)

5.2 Levels of Competition

In the BLAST R6 Global ecosystem, there exists two main levels of competition: Regional and Local. In relation to BLAST R6 EU ecosystem, the Europe League is a regional competition, the EU Opens a Local competition. Please refer to the BLAST R6 Global Rulebook for further elaboration.

5.3 Transfer Windows

Player/Coach transfer rules and windows will follow the procedure and calendar detailed in the BLAST R6 Global Rulebook.

5.4 Residency and Teams

All Players of the Team must reside in EU as defined in the Global Rulebook. The Organizer may, at any time, request proof and or verification of Residency or Age for any Player or member of the submitted Team. Failure to provide proof may lead to punishment.

5.5 Duration and Stages

BLAST R6 EU operates within the BLAST R6 framework of Stages:

Stage	Time Period
Stage 01	From March to May
Stage 02	From August to October

5.6 Points of Contact

In addition to Team Roster details, all Teams in the Europe League will provide the following contacts, including full names, email address, mobile number and Discord ID:

- License Holder
- Point of Contact for the Team if not the License Holder
- Point of Contact for Map Vetoes and any match or in-game topics

5.7 Documentation and Validation

Unless otherwise communicated, all documentation, including but not limited to: NDAs, Player Uplay IDs, Points of Contact, age and residency verification for the entire roster, signed Acknowledgement Letter, or any other requested items are to be provided within seventy-two (72) hours of a Qualifying Event (QE).

Qualifying Events

- Qualifying to EU Open
- Any event or activity in the BLAST R6 EU that introduces or accepts any Organizations, Teams or Players that have not previously submitted such documentation to the Organizer.

5.8 Communications

All communications, written and spoken, will be in English.

5.8.1 Email

The official communication method for BLAST R6 EU is email. The email address designated as the Point of Contact for the Team will be the one used for all official communications and should be kept updated as well as checked regularly to avoid missing any important information.

5.8.2 Discord

Discord is used as a secondary form of communication during play days, matches and any other real-time contact needs and is a requirement for all Teams to use and communicate with the Organizer.

All Team's Points of Contact will be added into the official EU Operations Discord and should be checked regularly to avoid missing any important information.

5.9 Match Process

The Match Process regulates how matches are played in BLAST R6 EU. These are the standard procedures and may evolve or change in the direction of the Organizer based on the needs of the program. Unless otherwise directed, all Teams will adhere to the following Online and Offline Processes.

In accordance with global events in 2020, it may become necessary to revert the Europe League to online. Such changes would be communicated to the teams.

5.10 Online Process

Prior to all matches, the Organizer will establish a match channel in the EU Operations Discord with the two Teams representatives invited. This will be the communication method for match coordination including map bans, technical issues, match issues or general Admin support. Teams will follow the instructions provided by the Admins, at all times.

On a match day, all Teams will connect and check-in with an Admin in the designated Discord channels and confirm the map bans for the match as well as address and concerns or questions they may have. The default time for all Teams to connect and check-in during regularly scheduled match days is 1 hour prior to the match start time. Check-in time is subject to change by the Organizer. For Open Qualifiers, the default time for teams to check-in to be included in the competition is 1 hour prior to competition start. Teams must check-in for each match on the tournament platform Challenger mode.

At check-in, the Admin will at that time or, if necessary, during the following communications in the Discord, advise the Team when to be prepared to play their match. It is the responsibility of the Team to follow up and respond to messages in the Discord as times may fluctuate and Teams may need to be ready to play at a different time than initially instructed.

At the start of the match, a designated Observer will establish the game and, upon confirmation by the Admin, invite both Teams into the lobby. The Admin will coordinate with the Observer to start the match when both the Teams and Production are prepared.

After the last game of the match, the Admin will confirm with both Teams when they are allowed to disconnect from the lobby and either attend a post-match interview, content segment or activity or be released from the match. Teams are prohibited from leaving the match and Discord channel until the Admin has confirmed they are allowed to do so.

5.10.1 EU Open and Closed Qualifiers

The EU Open and Closed Qualifiers will follow an exception process. These competitions will be played online and operated and coordinated through the Challenger mode platform, with rules and procedures outlined in the specific event including registration, check-in, communications, and match reporting.

5.10.2 Online Versions

All matches played online will do so using the current game update of Tom Clancy's Rainbow Six Siege, unless otherwise stated by the Tournament Organizer.

1.1.1 Server Selection

Matches are to be played on EU West by default. If both teams agree, they may play instead on EU North or EU Central. In the case of a disagreement, the server with the best average match ping should be used.

Admins reserve the right to select the server for play to ensure the best competitive environment for the match if an agreement cannot be reached.

1.2 Technical Issue & Rehost

This section outlines the rules and conditions in which a technical pause or rehost may be permitted. Any issues that occur outside of either the listed rehost conditions or times will be ineligible for rehost. Organizer maintains the discretion to issue a rehost at any time in the interest of competitive integrity.

1.2.1 Technical Pause

A Technical Pause is a pause in the Match which interrupts the standard proceedings due to an issue which prevents normal play conditions. Technical Pauses may not necessarily result in a rehost, but all rehosts are considered Technical Pauses.

During a Technical Pause, Players and the Coach may only speak with their respective Match Official in order to solve any ongoing issues pertaining to the technical pause.

1.2.2 Rehost Conditions

Preparation Phase

- Before the start of the Preparation Phase
- Any technical issues including the game and server, Player disconnect and or authorized software or hardware problems.

Action Phase

- Up to the first thirty (30) seconds of the Action Phase and if no damage has been taken by any Player.
- Observer-related issues.
- Player unable to control or move Operator.
- Game mechanic issues including shooting, reloading, movement, gadgets, or equipment.

1.2.3 Rehost Process & Continuation

Teams request a rehost by typing "rehost" in the Discord chat or asking for an Admin on TS Server channel, followed by the conditions which require the rehost. Teams will continue playing until the rehost is confirmed by the Admin.

If confirmed, the admin will contact the Observer to drop and rehost the game.

If not confirmed, the admin will respond via the match Discord channel or TS server channel.

In a match where there is no Observer, the Team will message “rehost” in the match Discord channel instead. This instance will, almost exclusively, occur in non-broadcasted, online Open Qualifiers matches. In the case of a rehost, Teams must exactly duplicate the conditions of the previous game/map/round including Operators (for defending team), equipment, gadgets, loadouts, bomb and starting sites.

1.3 Tiebreaker Procedure

If two or more Teams have accrued the same number of points at the conclusion of a Stage or Group Phase (or any other applicable event), the following procedure will be used to determine who will be considered the winner of the tie. Each condition below will be resolved in the order listed. The conditions listed will only reference the stage in which the tiebreaker takes place. If a condition does not resolve the tie, then the next will be used, and so on.

- Round Difference
 - The Team which has the highest difference between rounds won and lost during the relevant stage will be considered the winner of the Tiebreaker.
- Head-to-Head
 - The Teams who are tied are listed, then total number of wins, overtime wins, overtime losses, and losses that each Team has against the other Teams involved in the tie during the relevant stage is calculated. The Team who has the best win-rate amongst the set of tied Teams will be considered the winner of the Tiebreaker.
- Map Win Percentage
 - The Team which has the highest percentage of maps won during the relevant stage will be considered the winner of the Tiebreaker.
- Round Win Percentage
 - The Team which has the highest percentage of rounds won during the relevant stage will be considered the winner of the Tiebreaker.
- Tiebreaker Match
 - If none of the above conditions resolve the tie, then a tiebreaker match will be used to resolve.

1.4 Unintended Mechanics

An unintended mechanic is a condition or action that may allow a Player or Team to act or receive an advantage in a way that was not specifically designed, commonly referred to terms include, but limited to, exploit, glitch, bug, gimmick, and hack. At times, unintended mechanics may create an unfavorable result for a Player or Team.

Organizer will determine if the use of unintended mechanics influences the outcome of a match and award or penalize activities accordingly.

1.4.1.1 Currently Known Unintended Mechanics

Due to the fluctuating state of unintended mechanics, a global list of permitted and banned items will be maintained and displayed publicly. Currently, the list is contained in the BLAST R6 Global Rulebook.

As the list of unknown or non-addressed unintended mechanics increases past this list, the Organizer, on a case-by-case basis, will determine the final ruling and impact of items not specified below.

It is in Teams' best interest to surface any unintended mechanics not listed here and await Organizer approval before implementing their use, understanding that there is time needed to review and provide feedback on such items.

Any Team or Player may report issues for review and consideration to [R6FIX](#).

1.4.1.2 Interim Bans

In order to maintain the highest level of competitive integrity, at times of review, actions, Operators, or other mechanics may be restricted from use. These restrictions may or may not be implemented globally and confined only to the Europe League and change at any time with notice to teams.

Operator

- None

Unintended Mechanics

- Any position that Players can get to, and out of, by passing through any object, wall or surface and the Player cannot be both seen and attacked/shot at as normal.
- Shield boosting on to undetected window ledge.
- Using a Mira shield to boost.
- Standing on a window ledge undetected.
- Blocking window vaulting with a destructible shield.

- Parkour/Ledge exploit.
- Vigil boosting that renders Vigil undetectable.
- Melee attacking through Montagne's La Roc when extended.

1.4.2 Team Communications

The Organizer will provide TeamSpeak servers and or access for all Teams to use as the required voice communication system during matches. If deemed necessary, the Organizer may implement other communications services or equipment to replace or supplement the voice communication system. Voice communication systems, programs or applications not provided or authorized by the Organizer are prohibited. Communications will be monitored by the Organizer during matches and may be recorded, all or in part, for internal administrative or marketing purposes.

Any and all unauthorized communications with a Team during a match are strictly prohibited.

1.4.2.1 Online and Offline Communications

Aside from the Organizer, only the Coach may communicate with the Team during a match. The Coach may communicate with the Team until the Organizer initiates the start of the map, prior to the creation of the game lobby. At the moment the map starts, the Coach will be muted in the TeamSpeak server until the end of the map.

The Coach will be unmuted and allowed to speak to the Team for the duration of the break between the end of one map until the start of the next map.

This process will repeat for the duration of the match.

1.5 Required Software

1.5.1 Aim Lab

Aim Lab is a free software that is used to measure a player's performance. As part of their participation in the Europe League, all players in the Europe League are expected to create an Aim Lab account and to provide their username to the Organizer for the creation of ancillary content associating their Aimlab performance with the Europe League. Players may be asked from time to time to use Aim lab at specific times throughout the Season for the creation of such content.

1.5.2 Anti-Cheat

The following applications are required for participation in the MAJOR EU LCQ, BLAST R6 Europe League or EU Open and any activity that restricts, prohibits or alters their use are expressly forbidden.
